SIGMOD '98 Call for Papers
ACM SIGMOD International Conference on Management of Data
Seattle, Washington, USA, June 2-4, 1998
URL: http://www.boeing.com/sigmod98/

The 1998 ACM-SIGMOD Conference will bring together researchers, practitioners, developers and users to explore new concepts, tools, and techniques for database management systems. The conference will provide a forum for the dissemination of original research contributions as well as contributions related to practical system design, implementation, and evaluation. The conference will also feature panel sessions, tutorials, exhibits, demonstrations and a significant industrial track highlighting DBMS research and technology.

Topics of Interest (but not limited to):

Active Databases	Access Methods and Data Structures
Authorization and DB Security	Constraint and Rule Management
Data Models	Database Design
Database Mining and OLAP	Database Performance and Benchmarks
Database Programming Languages	Distributed Database Systems
Engineering/Scientific DB Systems	Extensible Database Systems
Heterogeneous Database Systems	Imprecise and Uncertain Information
Information Retrieval and Database	Legacy Databases
Logic and Databases	Mobile Computing and Database
Multimedia Database Systems	Object-Oriented Database Systems
Parallel Database Systems	Query Languages
Query Processing and Optimization	Real-Time Database Systems
Spatial and Temporal Databases	Tertiary Storage for Database Data
User and Application Interfaces	Workflow and Databases
World-Wide Web and Databases	

We strongly encourage submission of papers and participation from the entire international community of database researchers and practitioners. We also strongly encourage submission of papers that propose new approaches to topical areas for which current solutions are deemed inappropriate. Such papers, while perhaps not as fully developed, can nonetheless provide new technical directions to the field.

Submission Guidelines

All submissions (including technical papers, panels, demos, tutorials and industrial submissions) must be received by **November 03, 1997**. Submissions should be sent to the program chair:

Laura M. Haas
IBM Almaden Research Center, K55/B1
650 Harry Road
San Jose, CA 95120-6099.
USA.
e-mail: sigmod98@almaden.ibm.com
phone: 408-927-1722 fax: 408-927-3215

Research Papers and other Submissions

Please submit six copies of an original manuscript to the program chair. All submissions should be less than 25 pages, double-spaced, in no smaller than 10 point font (and with normal margins). The address, telephone number, FAX number, and electronic address of the contact author should be given on the title page of the submission. In addition, you must submit to the program chair by electronic mail a PLAIN ASCII file (no postscript, no LaTex) containing the title of the paper, the authors, and an **abstract** of 250 words or less by **October 27, 1997**. *Please visit our web site for additional copyright and publication information.*

SIGMOD '98 will have an industrial track, a demonstrations and exhibits program, and a tutorial and panel program as part of the technical program. Proposals for these should also be submitted to the program chair. *Please visit our web site for additional details.*

Important SIGMOD Dates:

Email submission of abstracts of papers (REQUIRED) in ASCII to sigmod98@almaden.ibm.com:	October 27, 1997
Deadline for ALL submissions (email submissions NOT accepted):	November 03, 1997
Notification of acceptance/rejection:	January 30, 1998
Camera-ready copies due:	March 07, 1998
